 **WARNING**

**Contains Silica Dust
Can Cause Silicosis and Cancer
Avoid Breathing Dust**

<u>HAZARDS</u>	<u>PRECAUTIONS</u>
<p>Silica dust can cause severe and permanent lung damage and other diseases.</p> <ul style="list-style-type: none">• Breathing silica dust can cause silicosis, a lung disease that can lead to serious breathing difficulties and death. Silicosis also increases the risk of tuberculosis.• Breathing silica dust can cause cancer.• Breathing silica dust may cause scleroderma, a scarring of the skin and internal organs. <p>Breathing silica dust may not cause noticeable injury or illness, even though permanent lung damage may be occurring.</p>	<p>Avoid breathing dust. Use with adequate and properly maintained dust collection systems to keep silica dust below permissible limits. Avoid creating dust when using, handling, storing or disposing of this product or bag.</p> <ul style="list-style-type: none">• Do not dry sweep product. Wet product with water or use a dustless method (vacuum) to clean spills.• Do not allow dust to collect on floors, sills, ledges, machinery or equipment. <p>Do not rely on your sight to determine if dust is in the air. Silica may be in the air without a visible dust cloud. If dust can not be kept below permissible limits, wear a respirator approved for silica dust when using, handling, storing or disposing of this product or bag.</p>

DO NOT USE FOR SANDBLASTING !
